A while ago I've announced the launch of a Xoops dedicated to football, and especially to the best team in Romania, Steaua Bucharest.

Now I've done some quite serious editing and hacking where I've found necessary and I've come to a new site look.

You can see it at justtupeu.lx.ro .

Any piece of advice would be welcomed. Wouldn't hurt if you'd put it right here as a comment.

See you at justtupeu.lx.ro Regards
