We have talked about the contest topics some times. Our xoops-site-of-the-month-contest is starting NOW. Not everything may look perfect yet but i think it is better to start now than starting a new discussion how to organize everything. I think that i can handle some critics cause i'm willing to learn. Feedback and comments how to handle and organize better in future ARE WELCOME.

Help and Partnership within this CONTEST is welcome too 😊 .

Is there someone who is more able to form the words in english language than i am and who is willing to rework the text to make it more understandable and better to read, to make it more professional?

Please read the [Text on XOOPS factory](#) for further information.
