

All ROmanian Crews - Graffiti Site - YAXS

We have recently started our [graffiti site](#) which is dedicated to graffiti movement in Romania. We have a gallery where we post the "jobs" done by our members and we also have a foreign section.

Although we use XOOPS portal for it we couldn't find any decent looking forum module 😞 We use instead the SMF forum (which has another user management 😞 different from XOOPS' one).

We hope some developer will get a SMF forum module released soon since the work on it has already started.

Any comments / critics / advices about the site are very welcome!

Cheers,  
Alex
