Fellow Xoopsers !

Due to the hacking of the Xoops.org server a couple of weeks ago, some files are still missing. The SmartFactory would like to request your help in finding the missing language packs of the SmartModules! We successfully found a couple of them but some are still missing.

If you have a language pack of any of the SmartModules, please go to The SmartFactory and see if the pack you have can be downloaded from our site. If not, we would be thankfull if you could send it to [webmaster at smartfactory dot ca].

As always, thank you for your help!

Cheers!
