The **Power-Dreams Dev Team** is very proud to announce that *PD-Downloads 1.2* has reached the *RC* Status.

Here is a small Changelog for all the Beta-Tester:

1. The Upgrade and Import Tool is now in the package
2. readded the "old" uploader and did a fix on it
3. fixed a cosmetic bug in the templates
4. fixed some english language variables
5. added the rss logo to some templates
6. added permissions query to some php files
7. fixed a bug in the xoops_version file regarind uploading-folder
8. added select and uploading screenshots when submitting a download
9. the sitemap plugin has now permission query
10. and many more ... (i dont remember 😖)

At the moment you should **NOT** use this modul on a productive website! You can download the module for testing -> HERE
