I am pleased to announce the grand re-opening of my eirenicon l.l.c. website!

You may visit the site at: <http://www.eirenicon.org/>

I have played with the theme quite a bit and tried a few innovations out including using java scriptiing for some of the menus.

If there is adequate interest in the eirenicon theme, I will 'generisize' it and provide a generic version to the community.
