The "Stichting Humanitaire Hulp Gambia" stands for projects in Gambia. By organising fund raising events and collecting money by a vast range of sponsors and partners, the organisation has been able to start and maintain a lot of projects in the inlands of Gambia.

Xoops, just by being Xoops, helps as the main frame of the organisation's website.

No technical highlights (yet), just plain good content supported by good modules as news and smartpartner.

The technicolor theme is used at the moment.

All of Xoops, thnx
