I converted the great postnuke mblocSputnik theme from Jai ([mentalbloc.da.ru](http://mentalbloc.da.ru)) to XOOPS RC2. You will find the updated version in the [Themecentral Exclusive Section](#). Original and updated Photoshop images for easy customizing included.

If you have a theme for XOOPS and want to share it with the community so go to [themecentral.com](http://themecentral.com) and [upload](#) your theme.
