

JDLL 2005 : meet Xoopers in real life - XOOPS

NEWS\_PDF\_AUTHOR: alain01

NEWS\_PDF\_DATE: 2005/9/27 15:00:00

Next 14 and 15 october, the [JDLL 2005](#)  
(Journées Du Logiciel Libre - Open Source Software Days) would take place in Lyon (France).

Your favourite cms will be present the whole day of Friday the 14.

The french speaking Xoops team will be there with a stand, and will propose full Xoops installation and configuratin demonstrations .

- SQL database
- Files
- Admin settings
- Groups management
- Installation and modules configuration
- Block management
- Thèmes and templates

There you would be able to meet each others, and ask your questions about Xoops.  
Should be there (so far) : [Alain01](#), [Fooups](#), [Kris](#).

We are going to end the day with a presentation of Xoops (with surprise at the end) between 6.30 to 8.00 pm, and finish up with a very friendly evening in a restaurant in town.  
If you are interested by the meeting and the restaurant, please, let us know for obvious organisational reasons.

Note: We could move the presentation from the Friday evening to the Saturday 15th morning, 10.00 to noon if needed.

Anyway, you are all welcome to this IRL meeting!

Thanks to Solo for the english translation...
