XOOPS Design is a team of web designers which wish to make part of the improvement of the graphic design of XOOPS, since we are aware that XOOPS is one of the best open source tools there is.

Our job is focused mainly at designing themes for XOOPS based on professional photoshop templates and in providing consultancy in the installation of existing modules, always with a professional approach.

We hope you find useful things at our website and if you need a custom design please contact us and we´ll be glad to respond you as soon as possible.

Vist us and see our commercial and free themes http://www.xoopsdesign.com
