From today on, the XOOPS-Site-of-the-month **SEPTEMBER** VOTING is **OPEN**.

We changed some things in organization and we are sure that it is now a bit easier for YOU to take part and vote for your favourite site.

FIRST, we decided to open the voting form for all visitors, **WITHOUT REGISTRATION**. Most people do not like to register on every xoops site, so we will try it this way, but we will view at each submission. Please do not abuse this system and the way we want to handle it.

This Month there are 24 Nominations which were submitted by YOU. Again, there are some Great Examples of XOOPS usage.

Here are some useful links for KLICK and VISIT:
