New Theme: clan_dark - Themes

NEWS_PDF_AUTHOR: Bassman

Everybody seems to be wanting themes for clan sites at the moment, so I converted a layout I comissioned into the clan_dark theme. There is a logo copy without the site name, and another copy without the header image in the zip so you can use your own image.
PLEASE NOTE: Right blocks are disabled in this theme, if you have any right blocks enabled, they will NOT show. Tested with Xoops 2.0.13.
This theme has been submitted to the theme library, and is also available from Bassman Themes
