

Code Data Management (CDM) V1.3 is released. - Modules

NEWS_PDF_AUTHOR: chippyash

NEWS_PDF_DATE: 2005/10/13 9:31:25

CDM provides the following functionality;

- * Provides a central repository for all codes that may be used in one or more Xoops applications
- * Provides central management of code data utilising Xoops group authority mechanisms
- * Provides a program API based on xoopsObject that can easily extended for additional application functionality

Change log

V1.0 Basic release

V1.1 Added cd_param field to cdm_code to add user defineable parameters for a code

V1.2 Added ability to bulk upload data from SQL insert statement file

V1.3 Added full support for hierarchical code sets

NB. Users of previous versions of CDM should note that the default language has changed to EN (was ENGB).

Available from this website's download area.
