

Release of SmartSection 1.0.4 Beta 2 - Modules

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2005/10/28 20:16:54

The [SmartFactory](#) is proud to release version 1.0.4 Beta 2 of its articles management module : [SmartSection 1.0.4 RC](#) ! **What is SmartSection?** SmartSection is a section management module for your XOOPS site. It is intended to provide the best fonctionnalities of the **News** and **WF-Section** modules. The administrator would have the opportunity to use the module to manage *news*, *article*, *tutorials*, etc... It is intended to be complete, flexible and yet easy to use.

The module supports subcategories, has a fully integrated permissions system as well as a complete notifications system.

Made for XOOPS 2.0.x Series

Please note that the 1.0.x series of SmartSection are not to be installed on XOOPS 2.2.x series. For more information please read this [FAQ](#).

What's in version 1.0.4 ?

- Field address Removed from item, replaced by an inclusion fonctionnality in item body
- Multiple pagewrap XoopsCode included in the form [pagewrap=filename]
- pagenav problem in admin/item.php
- WF-Section 1.5 migration script (importing categories, articles, htmlpage, linked files and comments)
- News 1.1 migration script (importing categories, articles and comments)
- FPDF now supporting ul and li tags (bug #3087)
- Userinfo screen was displaying articles not yet approved (bug #3090)
- Adding new Options (html, xcodes, images, etc...) in the user submit form (#bug 3089)

Where can I get it ?

Carefully read the file upgrade.txt as it contains important informations about the steps that need to be performed in order to successfully upgrade to this version.

You can download the module here : [SmartSection 1.0.4 Beta 2](#).

The language packs are available here : [SmartSection Language Packs](#).

As usual, any comments, bugs or suggestion are welcomed on the [SmartSection Support Forum](#).

Enjoy !
