Some corrections has been added on the files of the module MyAnnonces, several people announced to me a bug which added tags BR in the advertisements...

henceforth, the files in download has been corrected... if you wish to update this module on your site, [download](#) the new "version" send all the files of MyAnnonces on your server **except the file config.php in /cache/** it did not change, that will avoid you reconfiguring the module...

**Attention for this update** do not touch the the tables of your data base, **because they are not modified...**

And the translations in German language has been added (thank to [url=<http://www.backnang-online.info>]<http://www.backnang-online.info>)
