The gymnastics-club 'Salto City' in Copenhagen, Denmark, moved their site to XOOPS about 1.5 year ago, and during the summer we have upgraded to 2.2.

The latest update provided features to add our [Team Module](#), that can list the status of all our sport-teams, along with descriptions of the teams, coach details and place of activity. This module is still under development, but is currently in a working 0.5 version.

The site is all in Danish, so international guests will have to guess their way around.. 😊 at least for now...
