XF Guestbook 2.30 RC1 - Modules

NEWS_PDF_AUTHOR: Anonymous

NEWS_PDF_DATE: 2005/11/12 19:00:13

Description:

Last version of XF Guestbook in release candidate, with new functionalities, as well as compatibility Php 5 and xoops 2.2.

Modifications compared to XF Guestbook v2.22
- Choices of different pack from images (flags...)
- Addition options anti-Spam: not indexed bonds (nofollow)
- Addition option codes validation: checking that human is signatory
- Modification option for email: necessary, optional or not asked
- New administration
- Upgrade simplified and integrated into the administration

Caution
The function prohibiting the bonds in the message (antispam) does not function correctly:
file corrected sign.zip while waiting for modification of the file.

Warning: the english defines added in this version aren' T translated.
