THe first dev project on Xoops Factory - XOOPS

NEWS_PDF_AUTHOR: Alain

NEWS_PDF_DATE: 2002/5/27 11:32:39

Xoops France launched Xoops Factory a few days ago to help the authors of good developement projects for Xoops. The first project has been selected and launched.

The aim of this project is to develop a MICROSOFT SQL SERVER (MS SQL) class for XOOPS. The goal is to facilitate XOOPS deployment in a business environment, particularly the INTRANET market.
The dedicated dev site (offered to the author by Xoops Factory for the time of the release) is http://sqlserv.phpdev-city.com.
This site is in english and french languages...
Go and give your ideas to the dev team...
