I'm happy to announce the results of the **XOOPS** Site of month **october** voting. This month again, I recieved some more votings than in the previous month. Totally there were 148 votings within 11 invalid mails. Thanks for your participation and thanks to those who helped in promoting and making this contest possible.

... the winner is ...

[RF Online Base.](#)

"RF Online Base is a hub of detail for the highly anticipated MMORPG RF Online. RFBBase has a large community, friendly members, and a helpful staff."

Actually there were many hits on keyword "xoops sites" and "sites using xoops" so i think this contest will help to promote **xoops** too. There are some really nice and successful sites within our nomination and link area.

If you are interested in the full story with results, screens eg. visit
