As we have read a couple of articles and forum posts on Xoops about theme development, we thought it would be fun to let people witness the birth of a new theme.

Currently we are re-designing our Core site, but this time not behind close doors, but in public and in full view.

Although the site is in Dutch (English translation will follow), and we are a few weeks ahead now, we are sure we can contribute and/or tickle people to get creative.

So, if your favorite site has nothing news to tell you, pay us a visit at [Core74](#), and let's have the fun together.
