Some problems have been reported by users for the recent CBB 2.32 release and CBB 1.16 release.

Plz get the quickfix for the two packages:

[CBB 2.32a](#), [CBB 1.16a](#)

We are very happy to welcome [MadFish](#) joining the Team CBB.

MadFish is a XOOPS Documentation Writer and will be working on a CBB manual. If you could help us whatever with the manual, plz contact MadFish, or visit [CBB Homepage](#).

What features you prefer but missing in CBB?

What features your think should be removed from CBB?

In what area could CBB be improved to be professional?

Come to [CBB 2.4 Proposal](#)

The last, we have [A Logo by alitan](#)

The more help From The Community, the better benefit To The Community.
