Site of Ars informatica - small IT consulting, software distribution company is fully Xoops'ed

As promissed during the last Xoops'ed project Xoops @ F-Prot - this one has a bit more of original design, but the theme is heavilly influenced by artNomad, 7dana, Astonthemes.

Used modules: News, WF-Channel, xldh, Sitemap, Liaise, MyPage with some custom php code.

Visit Ars informatica site. Sorry, just one page in english...
