After Xoops RC3 was released today we were able to release the latest version of XoopsForge -version 2.0.3- is released as well.

Ok, what's new:

-----

- Made completely compatible with Xoops RC3
- Finished and improved administration section
- Choose between SMTP, Sendmail or QMail as mail transport agent.
- Fixed a lot of bugs

You can find the latest version in the Files section for download on <http://xoopsforge.sourceforge.net> .

Have fun with it,

the XoopsForge crew
