The Xoops modules Marquee (version 1 & 2) and iSearch are up to date.

For Marquee, this new versions correct some bugs when the texts were saved.

iSearch is also up to date with a version 1.4. Changes are :
- A bug was corrected in the words deletion
- The search in the blacklist is now case insensitive
- The code is lighter
- The export now uses the IP

You can download the modules here :
iSearch 1.4
