## CBB 3.0 RC is released - Modules

Posted by: phppp

Posted on: : 2006/2/5 17:00:00

The Team CBB is proud to release the CBB 3.0 RC.

CBB 3.0 is a re-packaged version compatible with XOOPS 2.0\*, 2.2\* and 2.30.

Considering the new features and DB query optimization, it is highly recommended to upgrade your CBB 1.\*.

New features introduced into CBB 3.0:

- 1 moderator accessible distributed batch threads/posts management (approval, edit, move, delete, merge, split)
- 2 moderator accessible distributed user/IP suspension management
- 3 trashcan implemented
- 4 posts search and management per user
- 5 pluggable module bridging handler implemented
