We would like to present you our new theme WDC_002

http://www.world-of-cartoons.de/WDC/cms/images/wdc_002.jpg

You can get this theme for Xoops 2.0.13 with one language or for Xoops 2.2.x as multilanguage version.

We have added the Java Navigation from the default theme to our WDC_002 theme. So you have a great drop down navigation. You will find one new folder with the name navigation, which contains the navigation files. It is easy to adopt the navigation, because it is only a html script.

Have fun with this theme
