XOOPS Sites: Here we are with the results of January 2006 voting. Not as much votings as we have seen in the last months, but therefore we got not as much spam as we have seen before.

THE WINNER IS : [dslnachpankow.de](http://dslnachpankow.de)

In the coming months i will continue to look for people who want to help reviewing sites and i'm still thinking how to categorize the voting into groups such as "best design", "best community" and "best content" etc.

READ more on [XOOPS factory](#)

btw. There's always place for some more nominations. The screens for the next month voting will be online soon.
