

ZentrackXoops 2.6.0.4 RC2 Released - Modules

NEWS\_PDF\_AUTHOR: dkeir

NEWS\_PDF\_DATE: 2006/3/2 10:22:42

The 2nd Release Candidate of ZentrackXoops, a fully customizable help desk, bug tracking, and project management system, has just been released.

In addition to the new features in RC1, the following major enhancements have been implemented:

- Module administration moved to Xoops Admin System.
- Module and Admin access fully handled by Xoops Groups
- Xoops and Module User management has better integration. Some security issues from RC1 resolved
- A few cosmetic improvements

Please see the README file for more details.
