Subscription Module for XOOPS - Modules

NEWS_PDF_AUTHOR: thirdeye

NEWS_PDF_DATE: 2006/3/7 21:17:52

Third Eye Software has released the Subscription Module for XOOPS. This module allows you to create, manage and sell subscriptions to your XOOPS content based on XOOPS security groups. Payments are handled by a plug and play payment gateway framework. Paypal and Payflow gateways have been released for this module already! See the website for more details:http://products.thirdeyesoftware.com **Features:**

Admin

- Create subscription intervals for daily, weekly, monthly, yearly or permanent subscriptions
- Create subscription types with different subscription intervals
- Assign XOOPS groups to subscription types
- Create subscriptions for paid access to XOOPS content using Group security
- Plug and Play payment gateways
- Reports for subscription payments and current subscribers

Users

- Select subscriptions to purchase
- Fully supports SSL for Secure Payments
- Cancel subscription at any time
- View subscription expiration dates
