ZentrackXoops 2.6.0.4 (Final) Released - Modules

NEWS_PDF_AUTHOR: dkeir

NEWS_PDF_DATE: 2006/3/15 20:25:44

ZentrackXoops 2.6.0.4 (Final) has now been released which includes a couple of new features since RC2 (see below).

ZentrackXoops is a Xoops port of zenTrack, a fully customizable help desk, bug tracking, and project management system. It works as a module of the Xoops CMS with full access and admin rights managed by Xoops Groups. Clean, simple interface, fully adaptable administration and nicely integrated to Xoops 2.0.x & 2.2.

This release incorporates the following major features:

- Added two Xoops Blocks: My Tickets, Quick Ticket (new since 2.6.0.4RC2)
- Implemented egate email gateway functionality (new since 2.6.0.4RC2)

- Module User Management screens with tighter integration with the Xoops user table
- Module administration moved to Xoops Admin System.
- Module and Admin access fully handled by Xoops Groups
- Keyboard shortcuts
- Filters to list window
- Updated contacts section
- Customizable multiple-select fields
- A few bug fixes
