

How to: Site Information Block - Modules

NEWS_PDF_AUTHOR: coldbeer

NEWS_PDF_DATE: 2006/3/16 13:07:29

Example of how to add an information block for Xoops (<http://en.wikipedia.org/wiki/Xoops>) with different images and links with "website buttons". You could find a lot of website buttons at:

---> <http://gtmcknight.com/buttons/>

You could find an online script to make your own website buttons at:

---> <http://ekstreme.com/buttonmaker/>

---> <http://www.kalsey.com/tools/buttonmaker/>

So it will not be difficult for you to change the appearance of your block. The included 'example.png' file could show you how is the appearance of this block as I made it.

Here is an example:

And [HERE](#) you could download the file.
