This is the 8th xoops site of the month contest I'm organizing at [xoopsfactory](#). We had 145 site-submission during the last nominations and i'm proud to see sooo many great sites made with **XOOPS**. I've just uploaded the screen-images of the actual nominations and put the [voting form](#) online. As always you are invited to browse through the [nominations of month MARCH 2006](#) and to vote for your favourite site. Play fair and have a look at the examples.
