Thanks to your massive support the XOOPS project was voted **first runner up** in the Sourceforge.net Community Choice Awards for the Development category! Gaim, the popular open source multimessenger, recieved the most votes and won the Development category.

Being first runner up in this contest is an acknowlegdement of the contributions everyone in this community has made. It shows that we are a strong and thriving community, one we can be proud to be members of.

This is a boost for morale, and hopefully will put the XOOPS project and its comunity in a well deserved spotlight!

Congratulations everyone!
