

article 0.90 is released - Modules

NEWS_PDF_AUTHOR: phppp

NEWS_PDF_DATE: 2006/4/21 13:13:02

The “Article” module is an advanced **content management** module for Xoops 2.0*, 2.2* and 2.30, contributed by the “Article Module Team”.

New **features** include: multi-category, multi-page, multi-template, SEO URL rewrite, div+css templated and most important, completely Xoops based.

Download article 0.90

Note: thank to A.D.Horse's report, the package is updated on Apr 23rd for missing search language definition.

Plz check [details for "article"](#) and ["article" installation](#)

Changelog:

- 1 Bugfix for PDF maker charset (reported by domecc)
- 2 Skip cache for edit pages
- 3 Correction/unification for image path
- 4 Added module update/install detection to reactivate module config settings
- 5 Performance improved in article page counting
- 6 Minor bugfixes for sql query
- 7 Added missing urlencode for keyword (reported by 100joy1.com)
- 8 CSS correction (by michael and Soudas GB&A)
