

Release of WF-Downloads 3.1 RC 2 - Modules

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2006/5/2 0:10:00

Fellow Xoopsers, [The SmartFactory](#) is pleased to announce the release of **WF-Downloads 3.1 RC2 ! What's new in version 3.1 RC 2?** This is the second Release Candidate of the 3.1 version and its objective is purely to fix some bugs discovered in RC 1. Other than bug fixes, this new release introduce a new set of icons carefully crafted by SmartFactory Team member Xpider 😊.

What is WF-Downloads?

WF-Downloads is an advanced Downloads module for your XOOPS 2.x site. With this powerfull module, you can easily set a downloads section on your site and offer unlimited amount of files to your users. The module supports subcategories, has a fully integrated permissions system as well as a complete notifications system.

You can even allow your users to submit and upload files on your site, given that they have the proper permissions 😊.

The module supports any XOOPS versions between 2.0.10 and 2.2.x.

Where can I get it ?

First, **if you are already using a previous version of WF-Downloads** it is ABSOLUTELY MANDATORY that you read the module documentation (included in the wfdownloads\docs\english\readme.html) before upgrading the module. This release includes some changes that need your attention in order for the module to work perfectly for you.

As a usual recommendation : The SmartFactory **STRONGLY** recommends that you take a full backup before INSTALLING or UPDATING any module.

You can download the module here: [WF-Downloads 3.1 RC 2](#)

The language packs are available here : [WF-Downloads Language packs](#). However, please note that, at the time of releasing the module, there is no language packs available for this version. We encourage the community to create the different language package needed and submit them on [The SmartFactory](#) site.

Help and comments ?

As usual, any comments, bugs or suggestions are welcomed on the [SmartDownload Community Support Forum](#).

THUMBS UP for the SmartFactory Team !

Finally, I would like to take the opportunity to mention the amazing work accomplished by The SmartFactory Team on this release. We have been a true team, working together as a team and helping each other as a team. I believe this is the true spirit of a development team.

Special thanks to Jan, M0nty, Bender and DavidL !

Enjoy !
