

Dutch XOOPS Support site has moved and changed address - XOOPS

NEWS_PDF_AUTHOR: Herko

NEWS_PDF_DATE: 2006/5/7 15:00:00

NLXS, the XOOPS Support community for the DUtch speaking part of the world has moved to a new server and changed its address to one that is simpler and easier to remember:

<http://www.xoops.nl>!

So, please update your bookmarks!

(Jan304 has created a nice redirect to ensure all links will keep working!)

The site move is a direct result of Jan304's transfer of management of the site to Herko. Jan304 is a full time student and simply doesn't have the time to manage NLXS anymore. He will remain active on the site however. Herko has a lot of experience with XOOPS and community management, and likes the new challenges this brings.

The goal is to make NLXS the hangout for all DUcth speaking XOOPSers out there, to create a fun community where they can collaborate and aspire to make XOOPS the most popular CMS in the Dutch speaking world.

The move and URL change is just the first of a series of changes. All changes are discussed on the public forums, and all Dutch speaking and those that live in the area are free to join in!

Voor alle Nederlandstalige XOOPSers: kom naar <http://www.xoops.nl> en doe mee!
