

Xoops Shortcuts module, definitive version 1.3 - Modules

NEWS_PDF_AUTHOR: hervet

NEWS_PDF_DATE: 2006/5/18 17:27:01

After a long period of tests and many bugs corrections, the Xoops module Shortcuts come back in its definitive version 1.3

So you can now use it on a production web site.

For memory, the Xoops Shortcuts module is a module with wich your users can create bookmarks from your pages site.

Users can also rank pages.

This new version brings many bugs corrections (often because of Internet Explorer)

All the module's code was rewritten.

[This new version is available for download here](#)

[In case of problems, questions of suggestions, you can use this forum](#)

If you are installing this new version on an older version, please don't forget to update the module !

Happy Xoops,
Hervé
