

CBB 3.04 RC3 Released - Modules

NEWS_PDF_AUTHOR: phppp

NEWS_PDF_DATE: 2006/5/21 1:56:25

CBB 3.04 RC3 is released, mainly for further improvement on performance (memory usage) and compliant xhtml/css.

We look forward to your help with debug and your ideas for better layout. In RC4, skalpa and me will work on output clean-up and cosmetic changes, as well as changes according to new features in XOOPS 2.014.
