

Release of WF-Downloads 3.1 FINAL - Modules

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2006/5/26 2:05:49

Fellow Xoopers, [The SmartFactory](#) is very proud to announce the final release of **WF-Downloads 3.1** ! **What's new in version 3.1 Final?** A few bug fixes, but mainly, this release included a temporary fix for the problem about files count in sub-categories (thanks jegelstaff).

What is WF-Downloads?

WF-Downloads is an advanced downloads module for your XOOPS 2.x site. With this powerful module, you can easily set a downloads section on your site and offer unlimited amount of files to your users. The module supports subcategories, has a fully integrated permissions system as well as a complete notifications system.

You can even allow your users to submit and upload files on your site, given that they have the proper permissions 😊.

The module supports any XOOPS versions between 2.0.10 and 2.2.x.

Where can I get it ?

First, **if you are already using a previous version of WF-Downloads** it is ABSOLUTELY MANDATORY that you read the module documentation (included in the `wfdownloads/docs/english/readme.html`) before upgrading the module. This release includes some changes that need your attention in order for the module to work perfectly for you.

As a usual recommendation : The SmartFactory **STRONGLY** recommends that you take a full backup before INSTALLING or UPDATING any module.

You can download the module here: [WF-Downloads 3.1 Final](#)

The language packs are available here : [WF-Downloads Language packs](#). However, please note that, at the time of releasing the module, there is no language packs available for this version. We encourage the community to create the different language package needed and submit them on [The SmartFactory](#) site.

Help and comments ?

As usual, any comments, bugs or suggestions are welcomed on the [WF-Downloads Community Support Forum](#).

Enjoy !
