[Buzau Live.ro](#) (portal for my native city) is my first and only site based on XOOPS. I'm working on it since August 2005 and every week I add or delete something, I improve it, I test different modules. It became a hobby.

It is based on XOOPS 2.0.13.2 with a little hack on URL rewrite, central blocks, templates.

Thanks a lot to all xoopers!
