The XOOPS development team is pleased to announce the release of XOOPS 2.0.14-rc1.

This is mainly a maintenance release containing a lot of bugfixes, but it also provides many enhancements implemented to lessen the gap between the 2.0, 2.2 and 2.3 branches.

And the [full change log](#) is available.

Please read the release notes **carefully** before installing/upgrading your site.

We would like to thank all the people who helped us by reporting early bugs from the SVN version (rowd, kris, david and all the others...).
