

Release of SmartSection 2.1 RC 2 ! - Modules

NEWS_PDF_AUTHOR: marcan

NEWS_PDF_DATE: 2006/5/30 14:00:00

[The SmartFactory](#) is very proud to release the second release candidate of **SmartSection 2.1 !**
What's new in version 2.1 RC 2? A few bugs found there way to RC 1 and we have fixed all of them. RC 2 brings us very close to a final release 😊.

What is SmartSection?

SmartSection is an article management module for your XOOPS site. It is intended to provide the best fonctionnalités of the **News** and **WF-Section** modules. The administrator would have the opportunity to use the module to manage *news*, *article*, *tutorials*, etc... It is intended to be complete, flexible and yet easy to use.

Where can I get it ?

Carefully read the file upgrade.txt as it contains important informations about the steps that need to be performed in order to successfully upgrade to this version.

As a usual recommendation : The SmartFactory **STRONGLY** recommends that you take a full backup before INSTALLING or UPDATING any module.

You can download the module here: [SmartSection 2.1 RC 2](#)

The language packs are available here : [SmartSection Language packs](#). We encourage the community to create the different language package needed and submit them on [The SmartFactory](#) site.

Help and comments ?

As usual, any comments, bugs or suggestions are welcomed on the [SmartSection Community Support Forum](#).

Enjoy !
