Back in [this post](#) I posted about a hosting package from British hosting firm 3D Pixelnet, who i've used for a long time, and have found them a great company for service - with excellent support.

Well - it's still available once again - and here's the update of this special custom package for all Xoops users!

The package gives you:

- * 500MB Space / 5GB Transfer (per month)
- * 2 MySQL database
- * 50 POP3/IMAP Emails
- * Spamassassin (user configurable)
- * Clamav (antivirus)
- * 2 Domains Allowed

In addition:

- PHP4.4.2 / CGI-BIN / Perl5 Scripting
- MySQL4.1.15 databases & PHPMyAdmin
- Feature Packed Control Panel (Plesk 8)
- Raw Log Access
- webalier Webstats
- Full FTP Access
- POP3/IMAP Emails & Webmail System
- Zone File Customisation
- Custom 404 Error Messages

The cost of this package is £29.99 / \$53.93 per year [and is available here.](#)

And, if you are new to Xoops, they also offer a Free one-time only set-up Xoops installation service for you. Any queries - visit the 3Dpixelnet forum at <http://www.deviantforums.com> (also hosted by 3DPixelnet of course! 🍷)
