I posted news about my new website Jordis Online, and unofficial fan site for singer Jordis Unga, a couple of months ago when I opened up the site. I wanted to let you know that Jordis loved the site so much, she has made it her official fan site.

I also wanted to say a BIG thank you to the Xoops developers and module developers for creating such a great CMS!!!

If you watched Jordis on Rockstar INXS last year, please head over and check it out [HERE](#) or visit her [MySpace page](#) and send her a message!

Thank again!
