Xoops.org may need another category: Yet Another Xoops Site by GhettoNET - this is our 6th, with 2 more being released in the next two weeks. This site, [Liberals Only](#), was designed to be a community for left-leaning people so they don't have to argue all the time. (No hard feelings really, we just want our own site).

It is the first site we've done that uses a theme by [Xoopstuner](#) (the xtnrEco theme), which proved to be one of the cleanest, easy to work with themes in our Xoops-site-making "career". We want to thank Xoops and all the core developers, module developers, and of course Xoopstuner for his awesome theme. 🏆
