XoopsPoll adopted by xProjects.co.uk - Modules

NEWS_PDF_AUTHOR: McNaz

NEWS_PDF_DATE: 2006/7/13 11:43:42

It appears that the Xoopspoll module has been neglected lately so it has been adopted by Panther Software Publishing and added to our xProjects Xoops modules website.

At the moment the only new feature is the ability to enable previous poll submission checks based on IP. This can now be disabled and made uid based if requires via the module's properties page (under Admin).

XoopsPoll new homepage can be found here.

Please read the release notes here and download it here.

Please post all your bug reports and feature requests to the the xProjects dev tracker here.

Cheers.

McNaz.

It appears that the Xoopspoll module has been neglected lately so it has been adopted by [Panther Software Publishing](#) and added to our [xProjects](#) Xoops modules website.

At the moment the only new feature is the ability to enable previous poll submission checks based on IP. This can now be disabled and made uid based if requires via the module's properties page (under Admin).
