

sifbuilder 1.1.0 released - YAXS

NEWS_PDF_AUTHOR: e999999999

NEWS_PDF_DATE: 2006/7/17 21:02:57

sifbuilder is a PHP web site generator supporting the declarative definition and automatic creation of operational web sites.

This release extends the sif scriptable installation framework to xoops. The following sample xoops sites have been automatically generated by sifbuilder:

<http://www.sifbuilder.com/sifbuilder/x501/>

<http://www.sifbuilder.com/sifbuilder/x502/>

More than 40 xoops module and theme installation packages are included in the distribution.
