

Xplorer 0.1 release - Modules

NEWS\_PDF\_AUTHOR: pemem

NEWS\_PDF\_DATE: 2006/7/29 21:30:49

I'm proud to announce the first release of Xplorer an explorer file manager for XOOPS.

Xplorer is a multi-user, web-based file-manager.

It allows you to manage and/or share files over the internet, or an intranet.

Xplorer is the adaptation of QuiXplorer (<http://quixplorer.sourceforge.net/>) for XOOPS

You can download it [Here](#)

Support Site and forums : [XoopsPro](#)
