I am ecstatic to report that my XOOPS site: <http://fbctgether.org> is number one on Google.

Simply go to <http://google.com> and enter **facing breast cancer** in the search box and then select **Im Feeling Lucky**. This will take you to our site.

Anything you can do to help keep this site, and its message of supporting those who have breast cancer, on top of the Google search list is most appreciated!

Thanks.
