NEWS_PDF_DATE: 2006/8/20 1:50:02

I published today on xoops France an article about the lastest changes sent to the XOOPS svn during this month. The covered subjects relate : - passage of the trunk svn in version 2.3 - new installer for Xoops 2.3 - zeta1 : new default theme - work on admin interface - working methods - tutorial on the developments, subversions and tortoisvn My English is not good enough to entirely translate this article into English, but if somebody wants to undertake some, not of problems.

I published today on xoops France [an article](#) about the lastest changes sent to the XOOPS svn during this month. The covered subjects relate : - passage of the trunk svn in version 2.3 - new installer for Xoops 2.3 - zeta1 : new default theme - work on admin interface - working methods - tutorial on the developments, subversions and tortoisvn My English is not good enough to entirely translate this article into English, but if somebody wants to undertake some, not of problems.
